Welcome and Intake

01

Menu Back Help Draft: not shared

Welcome and Consent

User goal: Understand the service and choose whether to begin.

Step 1 of 7 Draft in progress * Required

Required: consent choice * [ ] I understand and agree

Required: draft storage * ( ) This session ( ) Save draft

Optional: reading preference [Plain language v]

AI-supported action

Explains the notice in plain language. Intake processing starts only after consent.

Ask for explanation | Flag for human review

User controls: withdraw consent or delete draft at any time.

Evidence: not collected. AI claims: none yet.

Trust: consent stays optional. You can withdraw and delete drafts.

Recovery: if consent is missing: choose Agree, or Exit without saving.

Human review: unclear consent or requested accommodation.

Confirm and begin | Exit without saving

Output: consent choice and a new career-intake draft.

This tool provides draft career preparation and guidance. It does not make hiring, eligibility, benefits, legal, medical, or financial decisions.

User Action	AI Action	Trust Check	Human Review	Expected Outcome
Choose consent	Explain scope	No processing yet	Consent question	Intake unlocked

Menu Back Help Draft: not shared

Guided Career Intake

User goal: Describe your experience and career interests in your own words.

Step 2 of 7 Draft in progress * Required

Career interest * [Explore roles or enter a target role]

Experience * [Describe a task and what you contributed]

Work preference * [On-site / Hybrid / Remote / Unsure]

AI-supported action

Organizes your answers into a draft profile. It does not infer skills from rank or service.

Confirm | Edit | Reject | Add evidence

Ask for explanation | Flag for human review

Focus shown on Confirm

Evidence: self-reported. Profile needs your confirmation.

Trust: omit contact, medical, benefits, and sensitive service details.

Recovery: if a field is blank: focus the named field. Keep other answers.

Human review: sensitive content or a requested review.

Save and continue | Save for later

Output: editable profile and a list of gaps to clarify.

This tool provides draft career preparation and guidance. It does not make hiring, eligibility, benefits, legal, medical, or financial decisions.

User Action	AI Action	Trust Check	Human Review	Expected Outcome
Describe a task	Organize answers	No rank inference	Sensitive detail	Profile draft

Adaptive Questions and Skills Review

Menu Back Help Draft: not shared

Adaptive Follow-Up Questions

User goal: Fill meaningful gaps without repeating your earlier answers.

Step 3 of 7 Draft in progress * Required

Question: What part of the task did you own?

Response choice * [Answer now / Unsure / Skip for now]

Your answer [Enter an example if you choose Answer now]

AI-supported action
Asks one relevant question at a time. “Why this question?” links to the profile gap.

Confirm | Edit | Reject | Add evidence

Ask for explanation | Flag for human review

Focus shown on Confirm

Evidence: incomplete. Skipped answers stay unknown.

Trust: skipping never creates an assumed answer.

Recovery: if the question repeats: Reject it and choose another question.

Human review: repeated confusion or conflicting answers.

Save and continue | Save for later

Output: clarified examples and visibly unresolved gaps.

This tool provides draft career preparation and guidance. It does not make hiring, eligibility, benefits, legal, medical, or financial decisions.

User Action	AI Action	Trust Check	Human Review	Expected Outcome
Answer or skip	Ask next question	Unknown stays open	Conflicting answers	Clearer examples

Menu Back Help Draft: not shared

Transferable-Skills Review

User goal: Approve only the skills that accurately reflect your experience.

Step 4 of 7 Draft in progress * Required

Skill decision * [Confirm / Edit / Reject each suggestion]

Evidence link * [Choose an example / Mark evidence missing]

Illustrative suggestion: planning [From intake example 1]

AI-supported action

Suggests plain-language skills and shows the exact supporting passage for each.

Confirm | Edit | Reject | Add evidence

Ask for explanation | Flag for human review

Focus shown on Confirm

Evidence: source linked. Confidence: tentative until reviewed.

Trust: a suggested skill is a draft, not a credential.

Recovery: if support is weak: Add evidence, edit the skill, or reject it.

Human review: disputed skill or unsupported credential.

Save and continue | Save for later

Output: confirmed skills with evidence links and open items.

This tool provides draft career preparation and guidance. It does not make hiring, eligibility, benefits, legal, medical, or financial decisions.

User Action	AI Action	Trust Check	Human Review	Expected Outcome
Review each skill	Suggest translation	See source passage	Disputed credential	Evidence-linked skills

Target-Job Analysis and Career Materials

Menu Back Help Draft: not shared

Target-Job Analysis

User goal: Compare your confirmed experience with a job description.

Step 5 of 7 Draft in progress * Required

Job description * [Paste text without personal details]

Target role * [Enter the role shown in the posting]

Analysis scope * [Skills / Responsibilities / Both]

AI-supported action
Maps each job requirement to confirmed evidence and marks missing or uncertain support.

Confirm | Edit | Reject | Add evidence

Ask for explanation | Flag for human review

Focus shown on Confirm

Evidence: posting + approved skills. Gaps: needs evidence.

Trust: no hiring score, eligibility decision, or outcome prediction.

Recovery: if posting text is unreadable: paste plain text and try again.

Human review: ambiguous requirements or disputed mapping.

Save and continue | Save for later

Output: requirement-to-evidence map and questions to resolve.

This tool provides draft career preparation and guidance. It does not make hiring, eligibility, benefits, legal, medical, or financial decisions.

User Action	AI Action	Trust Check	Human Review	Expected Outcome
Paste a posting	Compare evidence	No hiring score	Ambiguous criterion	Requirement map

Menu Back Help Draft: not shared

Career-Materials Builder

User goal: Create career drafts that stay faithful to your confirmed evidence.

Step 6 of 7 Draft in progress * Required

Material type * [Resume bullets / Cover letter / Interview]

Source content * [Choose confirmed examples and target job]

Tone * [Direct / Conversational] Optional: length

AI-supported action
Drafts from approved examples. Each claim links to evidence. Missing facts remain placeholders.

Confirm | Edit | Reject | Add evidence

Ask for explanation | Flag for human review

Focus shown on Confirm

Evidence: linked claims. Draft status: not ready to send.

Trust: no invented metrics, credentials, or experience.

Recovery: if a claim lacks support: remove it or Add evidence before use.

Human review: unsupported claim or user requests a final check.

Save and continue | Save for later

Output: editable draft with source links and unresolved flags.

This tool provides draft career preparation and guidance. It does not make hiring, eligibility, benefits, legal, medical, or financial decisions.

User Action	AI Action	Trust Check	Human Review	Expected Outcome
Choose a material	Draft with sources	No invented claims	Unsupported claim	Editable career draft

Action Plan, Human Review, and Complete User Flow

Menu Back Help Draft: not shared

Action Plan and Human Review

User goal: Choose next steps and decide what a human reviewer may see.

Step 7 of 7 Review and finish * Required

Next step * [Select a task and set an optional due date]

Review choice * [Request review / Continue without review]

Sharing consent * [Select content / Do not share]

AI-supported action
Proposes next steps from open gaps and builds a review packet from only selected content.

Confirm | Edit | Reject | Add evidence

Ask for explanation | Flag for human review

Focus shown on Confirm

Evidence: mixed. Review status: not sent until you consent.

Trust: preview, edit, or revoke sharing before submission.

Recovery: if review is unavailable: keep the draft and retry. Never auto-send.

Human review: flagged items, contradictions, or user request.

Save action plan | Save for later

Output: saved action plan and, with consent, a review request.

This tool provides draft career preparation and guidance. It does not make hiring, eligibility, benefits, legal, medical, or financial decisions.

User Action	AI Action	Trust Check	Human Review	Expected Outcome
Choose next steps	Prepare review packet	Consent before share	Flagged items	Plan + review choice

Complete user flow

Seven steps. User approval controls each handoff.

1. Welcome and Consent
2. Guided Career Intake
3. Adaptive Follow-Up Questions
4. Transferable-Skills Review
5. Target-Job Analysis
6. Career-Materials Builder
7. **Action Plan and Human Review**

Review and recovery paths

Edit or Reject: return to the source step, then reconfirm.
Save for later: resume the last saved step.
Flag: choose content, consent, then send for human review.

Human review return

Pending / Needs changes / Reviewed. Show comments and let the user accept or edit. Human review never becomes a hiring decision.

Responsive and accessible behavior

Below 768 px: Menu replaces navigation, fields and buttons stack. Tab follows reading order. Focus and errors use text plus outlines.
